

Alberta's Fish Stocking Program

The following list of lakes, reservoirs and ponds identifies sites that are frequently stocked with rainbow trout, and some with brook trout, brown trout or cutthroat trout. Water bodies appearing below are open all year with a trout limit of five. **The harvest of game fish species other than trout from stocked trout waters is not permitted.** Stocked waters where the harvest of other species is allowed or where bait restrictions apply are listed under "Lakes and Streams Listings" for each Watershed Unit.

Several additional sites stocked with rainbow, brook, brown, cutthroat trout or arctic grayling are not identified in this section, but appear with special regulations under "Lake and Stream Listing" for each Watershed Unit starting on page 26.

Stocked waters are listed in the colour of their respective Zones starting on page 26, i.e. Zone 1, Stocked Eastern Slopes Waters - red; Zone 2, Stocked Parkland-Prairie Waters - blue; and Zone 3, Stocked Northern Boreal Waters - green.

REPORT A POACHER

Alberta Conservation Association's **REPORT A POACHER** program provides Albertans with the opportunity to report suspected violations using a toll-free number: **1-800-642-3800** or **#3800 on the TELUS Mobility network** (courtesy TELUS Mobility). The line is in operation 24 hours a day, 7 days a week.

Fishing or hunting out of season, night hunting, exceeding bag limits, illegal sale of fish and wildlife and deposit of harmful substances in lakes and rivers are violations that seriously affect fish

and wildlife in Alberta. If you see or know of a violation, you should record all information, including

- date
- time
- location
- vehicle licence number
- vehicle description
- description of person(s) involved
- details of violation, and any other details, no matter how insignificant they may seem. You should then contact the nearest Fish and Wildlife Division office or call **1-800-642-3800** as soon as possible.

If the information provided concerns a resource violation and results in the laying of a charge, the reporter may be eligible for a reward. If you have any questions about this program, please contact the nearest Fish and Wildlife Division office (page 24).
